We've got you covered

Whats on at Vostek

Stegbar Lansvale

Vostek recently undertook works at Stegbar windows and doors factory in Lansvale. The job was complicated as it required co-operation between Vostek employee's and Stegbar personel as operations were still underway during works on the timber factory.

Vostek consultated with Stegbar in order to achieve a works design that complied with their needs as a factory specifically heat resitance to minimise indoor temperatures and allow adequate sunlight into the factory. Vostek employee's completed the job on budget without the operations of the factory being hindered.

Beacon Hill Warringah Road Church

This month Vostek Roofing completed works on a church hall roof in Beacon Hill. The orignal asbestos roof created difficulties from the outset. Vostek employee's worked with asbestos contractors to manage safe work practises whilst on site.

Vostek Roofing installed the entire roof including roof drainage systems according to the clients wants.
